TAG SOLVENT PRODUCTS (PTY) LTD

WHO WE ARE

TAGSOLVENTPRODUCTS

Established in 1977, TAG Solvent Products is a formidable player in the local solvent market. With the largest tank installation in our market, a very well equipped and maintained truck fleet and competent, well trained staff, the company is poised to continue being the market leader in industrial solvents.

TAG Solvent Products continually aims to be a flexible and reliable supplier that responds quickly and efficiently to our customer needs whilst adhering to stringent quality control. We continue to make every effort to provide efficient service, of the highest standard to all our customers and intend to consolidate our reputation as being the leading reseller in the country.

TAG Solvent Products services a multitude of industries including paint and coatings, cosmetics, pharmaceutical, printing rubber industries, waxes and mining.

OUR FACILITIES

TAG Solvent - Head Office - Gauteng

At TAG Solvent Head Office in Germiston Gauteng, we have a state of the art tank farm installation from which product is pumped and blended for distribution to customers. Our electrical installation has a hazardous location classification of Zone 2. We have a full solar / generator backup for our offices and plants to ensure uninterrupted supply of product. Our pumps are coupled to the high quality flow meters which are regularly calibrated to ensure continued accuracy.

With approximately 1 000 000 litres of underground storage capacity, coupled to our high volume blending facilities we believe we not only have the largest, but the most state of the art installation in the market.

TAG Solvent - Eastern Cape

The Eastern Cape branch was established in 2012 and over this time has grown into a dominant market player in Gqeberha. This branch services a large area with customers from East London to Mossel Bay. Operating out of a purpose built property in Deal Party, this branch is well situated to continue growing into the future.

TAG Solvent - Western Cape

Our newly formed Cape Town branch has been set up to increase and solidify our national footprint. We have previously serviced our Western Cape customers from the Eastern Cape. We have however decided to create a permanent presence and have purchased a property in Blackheath to ensure that we give a high level of service to our Cape Town customers.

/PRODUCTS

/ALCOHOLS

n Butanol
Iso Butanol
Butyl Alcohol
Sabutol
Alcohol Solvent
Ethanol 96%
Clear Meths
Coloured Meths
Ethanol 95E5
